

Challenge 06 - Bootstrap

For this week's challenge, you will need to use Bootstrap to design a webpage that will be responsive on laptop/tablet/mobile (S & L) devices.

Please use Bootstrap only for the responsive design.

For achieving the 5 points, you will need to use a little bit of JavaScript. The required "tool" is "scroll spy", and if you need any help implementing it - please feel free to contact your instructors/mentors.

Evaluation system:

- 1 point** - HTML + CSS design on laptop;
- 3 points** - Responsive design on tablet & mobile devices (S & L resolution);
- 5 points** - Implemented *scrollspy*.

Deadline:

One week after its presentation, 23:59h end of the day.
